

## **Adding a New Participant**

There are two ways in which you may add a new participant to the CREST Simulator.

- Send in a GPAN message with the details of the required participant. Then send in a task request via the SimGUI 'Enable New Participant'
- Send an e-mail to [support@sfl.co.uk](mailto:support@sfl.co.uk) providing the following information:
  - Your USER ID
  - Your environment name
  - New participant ID
  - Participant Name

***Please note that there may be a charge for a new participant depending upon your current tariff agreement***
